

MATRIX

THIS HIGH-END PRODUCT CAN BE APPLIED TO PAINTED SURFACES, GLASS AND WHEELS FOR FULL VEHICLE PROTECTION.

DESCRIPTION

CERAMIC NANO-COATING FOR CARS

APPLICATION

HAND

APPEARANCE

CLEAR

AVAILABLE SIZES

STEP I
PRECOAT
120ML SPRAY
BOTTLE

STEP II
CERAMIC GLASS
COATING
40ML BOTTLE

The Matrix Ceramic Glass Coating system utilizes incredibly durable ceramic-polymer chemistry with advanced nanoparticle technology to produce an optimum paint enhancement and protection system that produces a spectacularly deep, glossy shine over a durable ceramic-like base.

El sistema de recubrimiento de vidrio cerámico Matrix utiliza una química de polímero cerámico increíblemente duradera con tecnología avanzada de nanopartículas para producir un sistema óptimo de mejora y protección de la pintura que produce un brillo brillante y espectacularmente profundo sobre una base duradera similar a la cerámica.

BENEFITS

- Solves the oxidation problem encountered by environmental pollution
- Applied coating makes for a hydrophobic, easier to clean surface with the benefit of long term protection against acid rain, oxidation, and other common contaminants

PART NO.
92025

WE ARE LOOKING FOR QUALIFIED DISTRIBUTORS TO EXPAND OUR GEOGRAPHIC DISTRIBUTION OF THIS HIGH-END PRODUCT
